

# DIEGO RAFFA

## PROFILE

Last year I finished my 1 Year in HNC UX Design & Front-End Development at the Dublin Institute of Design. Before I did a 10 Weeks Course in Web Design at the same College.

I did also several courses on Udemy and Scrimba.

I have just finished the Tech Degree in Front End Development at Treehouse at the moment

I'm currently seeking an opportunity to start a new full-time, part-time or even internship in Front-End Development.

I have some Project on GitHub (link below) and a Portfolio Website as well with selected Projects.

## EDUCATION

### **Techdegree in Front End Development by Treehouse**

**Jan 2020-Sept 2020**

Build real-world projects

Develop the skills professional developers use every day and complete 9 challenging projects.

At the end of the process, I built a portfolio of examples to showcase my talent to potential employers.

### **The Responsive Web Design Bootcamp by Kevin Powell**

**2019**

**July- December**

Some of the content in the course was:

Vertical aligning of content, Design best practices

Media Queries and viewports, Forms and how to make them look good, Advanced flexbox concepts, CSS Grid layouts

Icons with Font Awesome, Transitions and animations

### **Modern HTML and CSS from Beginning by Brad**

**Traversy(Including Sass)**

**January-June 2019**

Some content of the course was:

Build Multiple High Quality Website & UI Projects

HTML5 Semantic Layout & CSS Fundamentals

Flexbox & CSS Grid Projects

CSS Variables, Transitions, Dropdowns, Overlays & More

Website Hosting & Deployment With FTP & Git
